Third-year Informatics student at Del Institute of Technology with a strong focus on Full-Stack Web Development and Software Engineering. Experienced in building scalable applications using Laravel, React, Flutter, and Swift. Proven technical leadership as a Teaching Assistant and in organizational management. Driven by a proactive approach to mastering modern technologies and delivering user-centered digital solutions.

Education Level

Del Institute of Technology - Toba, Indonesia **Augst 2023 - Present**
Bachelor Degree in Informatics,3.45/4.00

- Focused on Machine Learning, software development and project management.
- Proficient in programming languages such as HTML, CSS, Java, PHP, React-Native, Laravel, JavaScript, SQL, Kotlin and Python.
- Selected as one of Del Institute of Technology's representatives for the Apple Foundation 2025 Program.

SMA Negeri 1 Balige - Toba, Indonesia **Augst 2020 – Jun 2023**
Natural Scients

- Understanding and applying the principles of physics, chemistry, biology, and mathematics to comprehend the universe and natural phenomena. Development of analytical and problem-solving skills essential for contemporary science and technology.

Experience

Apple Developer Academy @Infinite Learning - Batam, Indonesia **Jun 2025 – Jul 2025**
iOS App Developer

- Developed B-CAL, a comprehensive health app using Swift, HealthKit, and Pedometer frameworks to track BMI and real-time calorie data through robust backend logic.
- Led project coordination and UI/UX design, streamlining team milestones while producing high-fidelity prototypes in Figma to ensure an intuitive user experience.

Del Institute of Technology - Sitoluama, Indonesia **Jan 2025 – Jun 2025**
Teaching Assistant Fundamental of programming (Procedural)

- Mentored 58 students in hands-on lab exercises, focusing on C programming environments.
- Taught core procedural concepts including pointers, memory management, loops, and functions.
- Developed supplementary learning modules and practice sets to ensure 100% student passing rate.

Organizational Experience

Depertement of Infomation and Communication– Del Institute of Technology - Toba, Indonesia **Augst 2025 - Augst 2026**

Vice Head of Department, Communication and Information

Overseeing the strategic documentation of campus events, leading multimedia content production, and managing communication initiatives across photography and videography. Directed a team of members to ensure high-quality and consistent coverage of IT Del events, while approving all creative assets for publication on the official BEM IT Del Instagram account.

Depertement of Infomation and Communication– Del Institute of Technology - Toba, Indonesia **Augst 2024 – Augst 2025**

Member of the Documentation Division, Department of Communication and Information

Responsible for documenting campus events, managing multimedia content, and supporting communication initiatives through photography, videography, and written reports. Collaborated with team members to ensure accurate and timely coverage of IT Del events for publication on the official BEM IT Del Instagram account.

Del Institute of Technology - Sitoluama, Indonesia **Augst 2024 – Jun 2025**
Student Leadership

Guided and supported dormitory residents in daily activities, rules, and personal issues, motivating academic success and participation in learning activities, while resolving conflicts wisely to foster a cooperative and positive living environment.

Project experience

Website LPPM IT Del – https://github.com/JosualF23/itdel-lppm-app-main.git **Sept 2025 – Des 2025**

Website Developer

This system is the final project Web Based Application Development

- Developed a modern monolithic platform using Laravel integrated with React and Vue.js via Inertia.js to digitalize complex academic workflows, delivering a seamless Single Page Application (SPA) experience styled with Tailwind CSS.
- Engineered a multi-role RBAC system and automated document generation, backed by a robust PostgreSQL database design to ensure scalable and efficient management of multi-stage academic research submissions.

ChronoDesk Web Application – https://github.com/JosualF23/chronodesk-laravel.git **Okt 2025 – Nov 2025**

Website Developer

This system is the final project Web Based Application Development.

- Engineered a task management platform using Laravel and Vue.js/React, featuring secure authentication, interactive calendars, To-Do lists, and a timer to optimize user workflow.
- Designed a **PostgreSQL** database for efficient task and documentation storage, while utilizing Postman to ensure seamless API communication and high system performance.

B – cal : Pedometer framwork iOS BMI Tracker App – https://github.com/JosualF23/RunNow.git **Jun 2025 – Jul 2025**

App Developer

This project is an internship project at the Apple Developer Academy.

- Integrated Apple HealthKit & Pedometer Frameworks using Swift to track real-time movement, distance, and active calorie data.Core Logic Engineering: Developed the backend logic for Body Mass Index (BMI) calculations and user health data management using Swift.
- Developed core logic for BMI calculations and managed user health data, collaborating with designers to create high-fidelity prototypes in Figma.

Library Management Organizer (POPM) – https://github.com/JosualF23/alstrudat-c03-ifs23033.git **March 2025 - Jul 2025**

Fullstack Developer

This Application is the final Algorithms and Data Structures Project at Institut Teknologi Del

- Developed a library management system in Java specifically designed to handle complex borrowing and returning workflows using advanced data structures and algorithmic logic.
- Engineered core features to track book stock, borrower metadata (NIM), and queue management systems to streamline administrative operations for library staff.

Certifications

Belajar Dasar Pemrograman JavaScript – Frontend Engineering **Aug 2025**

Dicoding

Belajar Membuat Front-End Web untuk Pemula – Frontend Engineering **Feb 2026**

Dicoding

Belajar Dasar Pemrograman Web – Frontend Engineering **May2026**

Dicoding

The Complete Flutter Development Bootcamp With Dart – Bootcamp **Jan 2026**

Udemy

Interest & others

- **Interest:** Backend Engineer, Frontend Engineer, Full Stack Web Developer and Software Engineer.
- **Skills :** HTML, CSS, C, Javascript, ReactJS, NodeJS, Laravel, Kotlin, Flutter - Dart, Python, R, PHP, PostgreSql, MySQL, Postman API, Swift, Visual Studio Code, SQL Server Management Studio, IntelliJIDEA, Figma, Android Studio, Microsoft Word, Microsoft PowerPoint, Communication, Collaboration, Project Management, Teamwork, Team Leadership, and Photoraphy.
